Portrait of Dr. Albert Schweitzer/Arms. Mintage only 1040. Marks the centennial of Schweitzer's birth. K-M estimate the coin at the \$1,000 level. In Great Demand.

- 5196 **1796.** Brass token/counter, 24mm, by Henry Kettle, noted English die sinker, in imitation of a Prussian Frederick d'or **AU.** **(\$200-Up)**

Bust on obv. more closely resembles the Frederick the Great (r. 1740-86) portrait on the 2 Frederick d'or — legend "FRIEDRICH WILHELM KOENIG VON PRUSSEN" (Sic) The German spelling of Prussian is "Preussen." Under the bust is the signature "KETTLE"

Rev. is an imitation of the standard Eagle over Trophies design, and 1796-A (Berlin Mint). An extremely rare date for a Kettle token. Most are dated in the early 1800s, and among Kettle's other imitations are the U.S. \$2.50 and \$5 gold pieces. All his specimens were meant to be imitative rather than deceptive.

Accompanying the token is an information file housed in a ring binder: letters by token expert Russell Rulau, published articles on Kettle in "Coin World," etc.

Please note that a 5% buyers charge will be added to each lot purchased on all purchases.

- 5534 **1866-Mo. Maximilian Peso**. Pattern with small letters on obverse. Krause-Vogt P43; Buttrey 71. **Very Rare. Choice AU.** **(Photo)** **(\$1,500-Up)**  
Design same as regular issue but with differences in detail and better struck (except on bottom of wreath in reverse arms, which is always flat). Actually Uncirculated and somewhat prooflike but hairlines and bagmarks. Supposedly only 36 were minted but more are believed to exist. An XF+ in the 12/80 NASCA auction, not at all as nice as this, realized \$2,700. Krause = \$3,000 Unc. With the problems involving Mexican currency, that price may be high today. Bidders may wish to check the price of the AU auctioned recently by Superior. With the worldwide interest in Maximilian coinage, this coin should retain most or all of its old value, although we have made our estimate rather low.
